Versatility In Millinery

Inspirations From Central Asia.

MANY TYPES IN PARIS

A few hours spent on the leading, avenues, or in the smart restaurants and tea rooms, here in Paris convinces one that this season's clothes are marked chiefly by their versatility. Take hats, for instance. Never have there been so many types, as there are at present. Some women have adopted whole-heartedly the very high hat introduced a few weeks ago. Others cling quite as persistently to the fiat brimmed type. Sailors, or canotiers, as they are called here. are popular with the woman who goes in for tailored things, and variations of the turban are favourites with some of the best dressed women.

An interesting interpretation of the turban was seen at tea recently at Claridge's. The hat complemented the cornflower blue marocain dress from the Lucien Lelong salons, and was of the same colour in a heavy crepe. It gave the effect of being a single wide strip of material wound around and around, each band slipping a little out of the one below, until the high top was reached.

An ornament on one side appeared to be the only thing which held the silk in place, no sewing whatsoever being visible. The frock, was quite long-nearly ankle length, the popular new length for all sorts of formal afternoon wear. Taken collectively, I have no hesitation in saying that the second lot is better, but the top ponies of the first lot, that is to say, Warrington, Golden Dragon, Burgomaster and Hey Tor, are in every way equal to the leaders in the second lot.

BURGOMASTER was the most unfortunate pony during the first half of the season. He was ways "pipped" on the post or some other way he lost in expected manner. he will be under a jockey, who, the way, is likely to make a name for himself in local racing. If the pace is a slow one, Burgomaster has it in him to come away in the last quarter and win.

Of the sprinters THE PANTHER is one that commands attention. Ho will go to the post under Mr. Frost, who has been known to bring bigger outsiders than The Panther. There is nothing whatever the matter with The Panther. He is and sound, and, although essential ly a sprinter, he might be able to last just long enough to win with Mr. Frost looking after his pace. He has the speed to race anything in the first or second batch over six or seven furlongs, and can hold his own up to the mile and a quarter if the earlier pace is not too fast. Vigilance, if he does not secure a big lead early on, will have no long lead, however, and he is quite capable of helping himself to a few lengths before the first half mile is over, he will prove a danger, as he has sufficient quality labout him to put up a good show in the run home.

ALTERNATIVE FOR THE "DOUBLE"

(By Rapier.)

INBEATEN over 11/4 miles National Day, with Mr. Benny Proulx up, is the most likely candriffe JOCKEY didate for the Subscription Griffins Challenge Cup THE JOCKEY on Saturday.

Warrington, with Mr. Norman Deitz up, is a warm favourite, but I cannot see him beating either National Day or De Minimis with Mr. S. N. Pan up. Should there be an upset due to the condition of the course the best outsider is Partnership (Mr. S. Y. Liang).

If Hey Tor accepts he should be watched, in spite of the belief that he cannot stay the distance.

Whatever wins a useful dividend will be paid, as it is one of the most open classics in the history of the Colony Turf.

The innovation of the "double" on the fifth Fanling during the first half of the and eighth races will cause punters to scratch their season: heads, and I would suggest National Day and Wakefield, or National Day and Alexandra Hall.
